

Mission:

To protect, promote & improve the health of all people in Florida through integrated state, county & community efforts.

Rick Scott
Governor

John H. Armstrong, MD, FACS
State Surgeon General & Secretary

Vision: To be the Healthiest State in the Nation

INTEROFFICE MEMORANDUM

DATE: February 18, 2016

TO: County Health Department Directors/Administrators

FROM: Celeste Philip, MD, MPH 
Deputy Secretary for Health

SUBJECT: Kindergarten and Seventh Grade Immunization Status Report 2015–2016

INFORMATION ONLY

Each October, all public and private schools with a kindergarten and/or seventh grade are required to submit reports indicating the immunization status of their kindergarten and/or seventh-grade students. This information is compiled and sent to the Immunization Section for tabulation. Enclosures 1 through 4 are summaries of kindergarten data, and enclosures 5 through 8 are summaries of seventh-grade data. This year's report reflects immunization coverage for 224,430 kindergarten students and 225,799 seventh-grade students.

Purpose:

- To decrease the occurrence of vaccine-preventable diseases by increasing immunization coverage levels among school-age children
- To emphasize the importance of immunizations to our community partners, including public, private, and parochial schools
- To ensure the enforcement of Florida Administrative Code Chapter 64D-3.046 and section 1003.22, Florida Statutes, regarding immunization. Florida law states students may not attend school without proper immunization documentation. Schools permitting students without proper documentation are in violation of the state law. Instead, schools should exclude those students from school until proper documentation is provided. (Exceptions: Schools may issue temporary [transfer] exemptions for up to 30 days for (1) students transferring into a new county; (2) a homeless child; (3) juvenile justice system entry; and (4) children of military families as defined in section 1000.36, Florida Statutes.)
- To identify those counties needing assistance in raising immunization coverage levels in kindergarten and seventh grade to Florida's goal of 95 percent. The national goal for kindergarten and seventh grade is 95 percent and 90 percent, respectively.

Results—Kindergarten:

- Statewide, 93.7 percent of kindergarten students were reported as receiving all immunizations (listed

Kindergarten and Seventh Grade Immunization

Status Report 2015–2016

Page Two

February 18, 2016

below) required for school entry/attendance:

- Four or five doses of diphtheria, tetanus, pertussis (DTaP) vaccine
- Three, four or five doses of polio vaccine
- Two doses of measles, mumps and rubella (MMR) vaccine
- Three doses of hepatitis B vaccine
- Two doses of varicella vaccine

Of Florida's 67 counties, only 39, or 58.2 percent, achieved or exceeded the 95 percent state goal of kindergarten students receiving all required immunizations upon school entry/attendance. Statewide, 254 students, or 0.1 percent had inadequate immunizations and/or documentation of immunizations. Students with exemption from immunization accounted for 6.1 percent of the total kindergarten population, as reflected below:

- 6,530 temporary medical exemptions, or 2.9 percent
- 699 permanent medical exemptions, or 0.3 percent
- 4,226 religious exemptions, or 1.9 percent
- 2,345 30-day exemptions, or 1.0 percent

Results—Seventh Grade:

Statewide, 96.3 percent of seventh-grade students were reported as receiving all immunizations required for school entry/attendance, including but not limited to:

- Completion of the hepatitis B series
- Two doses of measles, mumps and rubella (MMR) vaccine
- Two doses of varicella vaccine
- One dose of tetanus-diphtheria-pertussis (Tdap) vaccine

Sixty-two of 67 counties, or 92.5 percent, achieved or exceeded the 95 percent state goal of seventh grade students receiving all required immunizations. Statewide, 341 students, or 0.2 percent, had inadequate immunizations and/or documentation of immunizations. Students with exemptions from immunization accounted for 3.6 percent of the total seventh-grade population, as reflected below:

- 3,698 temporary medical exemptions, or 1.6 percent
- 733 permanent medical exemptions, or 0.3 percent
- 2,835 religious exemptions, or 1.3 percent
- 842 30-day exemptions, or 0.4 percent

The statewide percent of kindergarten temporary medical exemptions is 2.9 percent—the same as last year and the lowest in more than two decades. For the third year in a row, the seventh-grade temporary medical exemption rate is below two percent. This is less than half the rate just five years ago (3.7 percent; 2010–2011). Florida is working hard to decrease its temporary medical exemption rates.

It is important to remember 30-day exemptions should only be issued to students with qualifying exceptions as noted in *Purpose*, Page one, bullet 3. Inadequately immunized, non-transfer students should be permitted school entry or attendance only after presenting proper documentation of vaccination. It is the school's responsibility to follow up with students with temporary medical and 30-day exemptions, ensuring students complete the immunization series.

Kindergarten and Seventh-Grade Immunization

Status Report 2015–2016

Page Three

February 18, 2016

Collaboration between the school's health nurse (who may or may not be a CHD employee) and the school's administrative staff is crucial. Using a reminder system to recall students in need of immunization has been shown to increase vaccination coverage rates. Please continue to partner with local schools, school districts, managed care organizations and private health care providers to promote the *Standards for Child and Adolescent Immunization Practices*.

We encourage you to contact your local area field staff representative to assist with identifying areas of need and developing strategies for increasing your county's school immunization rates. Collaborative efforts will help us reach our state school coverage goal and enable us to achieve our common goal of providing the best protection possible against vaccine-preventable diseases.

The Immunization Section thanks its community partners, especially the Florida Department of Education, school districts and local schools for their efforts regarding the compulsory school immunization law, thereby assisting in the decrease of vaccine-preventable diseases. If you have any questions or concerns regarding this report, please contact our survey and assessment consultant, Ms. Amy Wilson, at 850-245-4444, extension 2395.

¹Chapter 1003.22, Florida Statutes, provides for the requirement of proper documentation prior to school entry into Kindergarten.

²Florida Certification of Immunization (DH 680 Form, Part A) is issued when 5 or more doses (valid) of any diphtheria and tetanus toxoids and pertussis vaccines, including diphtheria and tetanus toxoids, and any acellular pertussis vaccine (DTaP/DTP/DT), 4 or more doses of any poliovirus vaccine, 2 doses of measles, mumps and rubella (MMR) vaccine, 3 or more doses of hepatitis B vaccine, and 2 doses of varicella vaccine (or disease history) are administered. Four doses of DTaP and 3 doses of polio are acceptable if the last dose of each was administered on or after child's fourth birthday.

¹Chapter 1003.22, Florida Statutes, provides for the requirement of proper documentation prior to school entry into Kindergarten.

²Florida Certification of Immunization (DH 680 Form, Part A) is issued when 5 or more doses (valid) of any diphtheria and tetanus toxoids and pertussis vaccines, including diphtheria and tetanus toxoids, and any acellular pertussis vaccine (DTaP/DTP/DT), 4 or more doses of any poliovirus vaccine, 2 doses of measles, mumps and rubella (MMR) vaccine, 3 or more doses of hepatitis B vaccine, and 2 doses of varicella vaccine (or disease history) are administered. Four doses of DTaP and 3 doses of polio are acceptable if the last dose of each was administered on or after child's fourth birthday.

¹ Includes preliminary data for Flagler County public school district.

² Second dose of mumps, rubella, and varicella vaccines required. Survey does not capture total number of private schools reporting.

³ National shortage of diphtheria and tetanus toxoids and acellular pertussis vaccine (DTaP) increased the amount of temporary exemptions.

⁴ Varicella vaccine (or disease history) required.

⁵ Hepatitis B vaccine series required.

¹Chapter 1003.22, Florida Statutes, provides for the requirement of proper documentation prior to school entry into seventh grade.

²Florida Certification of Immunization (DH 680 Form, Part A) is issued when 4 or more doses (valid) of any diphtheria and tetanus toxoids and pertussis vaccines (DTaP/DTP/DT) and 1 dose of Tdap (tetanus toxoid, reduced diphtheria toxoid and acellular pertussis), 4 or more doses of any poliovirus vaccine, 2 doses of measles, mumps and rubella (MMR) vaccine, 3 or more doses of hepatitis B vaccine, and 2 doses of varicella vaccine (or disease history) are administered. Four doses of DTaP and 3 doses of polio are acceptable if the last dose of each was administered on or after child's fourth birthday.

¹Chapter 1003.22, Florida Statutes, provides for the requirement of proper documentation prior to school entry into seventh grade.

²Florida Certification of Immunization (DH 680 Form, Part A) is issued when 4 or more doses (valid) of any diphtheria and tetanus toxoids and pertussis vaccines (DTaP/DTP/DT) and 1 dose of Tdap (tetanus toxoid, reduced diphtheria toxoid and acellular pertussis), 4 or more doses of any poliovirus vaccine, 2 doses of measles, mumps and rubella (MMR) vaccine, 3 or more doses of hepatitis B vaccine, and 2 doses of varicella vaccine (or disease history) are administered. Four doses of DTaP and 3 doses of polio are acceptable if the last dose of each was administered on or after child's fourth birthday.
